

December 4, 2025

Dear Sail Pensacola,

This letter is to express our thanks for your generous donation of \$3,000 to support our Remote-Controlled Foiling Sailboat project. The project would not be possible without your support. The experience of the project even helped one UWF student gain employment in the maritime field. We also want to thank Sail Pensacola for their guidance and technical assistance throughout the project. We look forward to more sailing in the future.

Warm Regards,

Michael Reynolds, PhD
Associate Professor and Chair
Mechanical Engineering
University of West Florida
